November 12, 2025

Dear Valued Dart Customer,

We would like to inform you of an upcoming **price increase on select foodservice products, effective January 1, 2026**. This adjustment is due to rising raw material and other costs.

Price increases will range between **5-10%**, depending on the product category. Your updated price list for all affected products is attached.

Price increases apply to **all orders placed on or after January 1, 2026**. Orders placed before this date will retain current pricing when called for immediate shipment. All contract prices that were not guaranteed for a specified period will be affected.

If you require further information, please contact your Dart Canada Sales Representative or Customer Service Team.

Thank you for your attention to this update and your continued support.

Dart Canada, Inc.
