

**DATE:** May 18, 2022  
**SUBJECT:** SC Johnson Professional Price Changes

Dear Valued Customer,

Our economy continues to be challenged by unprecedented inflation across multiple supply chain factors including transportation, raw materials, wages, packaging, and more.

In 2021 we sought to absorb the cost dynamics across these factors, however, the impact has continued to increase in 2022. As a result, we want to inform you of upcoming price changes. To offset a portion of the aforementioned inflationary factors, we will be adjusting prices as listed below. The detail of affected SKUs appears in the attached file. Please note updated price lists will be distributed in June.

**SC Johnson Professional Skin Care Categories Effective September 1, 2022:**

- Skin Care 6.5%
- Dispensers – No increase.

Please note, all orders received on or after the pricing effective dates will reflect the new pricing and corresponding terms and conditions. To maintain service levels, orders received prior to the effective dates may be limited to your historical monthly average volume of purchases through the SCJP.

Thank you for your support and partnership during these challenging times.
