## MARKET PRICE ITEMS:

In an attempt to avoid announcing a price increase across the board Globe Commercial Products is launching our "Monthly Market Price" list on a select few items. These are items that have experienced huge raw material increases in the last 60 days.

As a result we have to go up on these items only. Our hope is that these inflationary pressures subside and we are able to bring these items back down to normal levels. Increases will only apply to the products most affected by these inflationary pressures and be kept to an absolute minimum.

A list of items is on the corresponding attachment. Should you have any questions at all please reach out to your Globe Commercial Products Account Representative.

Globe will continuously seek ways to minimize costs and pass along those savings to our customers. We will continue to work to ensure a healthy business environment for you and your customers going forward.

Thank you for your continued support and co-operation.

Ian Wilson  
President

Right Product. Right Price.
