

March 31, 2026

Dear Valued Sabert Customer,

The ongoing geopolitical conflict in the Middle East, has created significant volatility in global energy markets and disrupted the global supply chain. These external pressures have led to rapidly increasing raw material, transportation, and other manufacturing costs that Sabert is no longer able to absorb. As a result, Sabert is announcing the following price increases **effective May 1, 2026**:

All PP: 8%

All PET/CPET: 8%

This letter serves as official notice and your specific price file will be distributed shortly. Prices for all contracted customers (including POD), will be adjusted per the terms of each agreement. Please contact your local Sabert sales representative if you have any questions.

Orders placed before May 1, 2026 must be for immediate shipment, and Sabert reserves the right to limit orders that exceed historical purchase quantities.

We understand the challenges price changes present to your business. Our team remains committed to mitigating further fluctuations by optimizing our operations and securing stable inventory to ensure we continue to meet your demand without interruption.

We appreciate your partnership and your understanding as we navigate these global market shifts together.

Sincerely,

A handwritten signature in black ink that reads "Michael J Van Loh".

Michael Van Loh  
VP, North America Sales
