Ref: Price Increase Notification – Steel and Seals

Dear Valued Customer,

Raw material costs are increasing and being passed on by our suppliers.

Specifically, steel materials have been significantly impacted by higher energy inputs, reduced global production capacity, and increased supplier pricing.

Despite our continued efforts to control internal costs and collaborate closely with our supply partners, these increases are beyond what we can reasonably absorb while maintaining the quality, reliability, and service levels you expect.

Effective for all orders received on or after Monday, May 4th, 2026, the following price adjustments will apply:

- **Steel Strapping: increase of 3.5%**
- **Seals: increase of 12.5%**

All orders must reflect standard purchasing volumes and are intended for immediate delivery. Orders remain subject to acceptance and confirmation by Samuel Packaging.

We appreciate your continued support. Our Customer Service and Sales teams will be able to assist you with any questions.

Sincerely,

T.J.D. (Terry) Evans
VP – Commercial Development, Technical Sales and Service
