RE: Price increase announcement

Attn : Imperial Dade Canada

Due to ongoing global supply disruptions and rising costs related to the current geopolitical tensions in the Middle East, our transportation, energy, and raw material costs have increased significantly.

As a result, Tycho Poly is forced to implement a price increase on all our products.

Effective May 1, 2026, Tycho Poly Inc. will be implementing a:

- 5% increase on all black can liners
- 7% increase on all clear can liners and compostable bags
- 10% increase on all custom poly products

Your Tycho Poly Sales Representative will reach out to discuss your updated pricing, and any questions or concerns you may have.

Thank you for your continued partnership and support.

Regards,

Paul Urquhart

Vice President of Sales
Tycho Poly Inc.

RE: Price Increase Announcement

Imperial Dade Canada

Ongoing geopolitical instability has continued to place significant pressure on global supply chains, resulting in sustained increases in raw material costs and constrained supply, particularly as higher-priced exports are absorbed by markets.

As a result of announced supplier increases to resin raw materials, through late March and April—with further announcements extending into May—Tycho Poly must implement additional pricing adjustments across our polyethylene product lines.

Effective **June 1, 2026**, the following increases will apply:

- **5%** on all black can liners
- **7%** on all clear and coloured can liners and compostable bags,
- **18%** on all food-grade and custom polyethylene products.

All purchase orders received on or after June 1, 2026, will be subject to the revised pricing.

Due to supply concerns, at this time, only standard order quantities will be accepted.

While we hope for stabilization, we do not anticipate near-term relief and expect that further increases may be necessary into Q2 of 2026. We will continue to monitor the situation closely and adjust as needed.

Your Tycho Poly Sales Representative will contact you to review updated pricing and address any questions or concerns.

Thanking you for your continued partnership.

Sincerely,

Paul Urquhart

Vice President of Sales

Tycho Poly Inc.
