

# Specification Information

**Product Code:** 1107

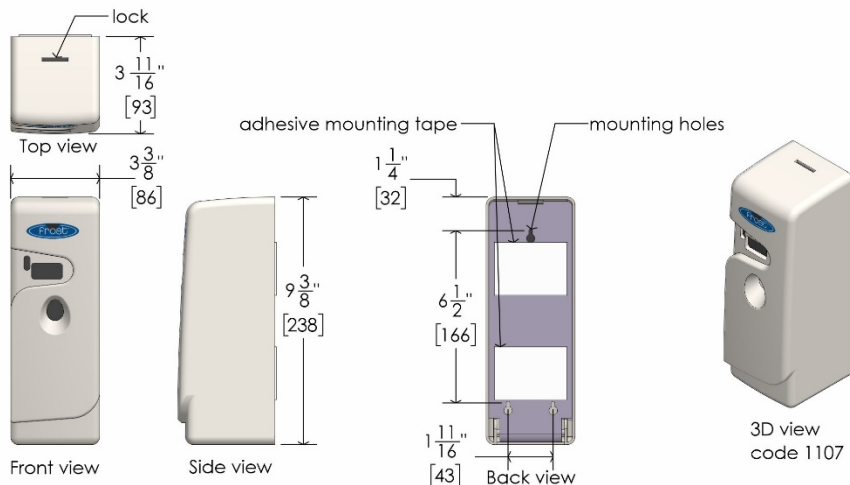

**Product Name:** Automatic Deodorizer

**Individual Carton UPC:** 624622110703

**Individual Carton Shipping Dimensions:** 25.4cm W x 10.2cm H x 10.2cm D (10" W x 4" H x 4" D)

**Individual Carton Shipping Weight:** 0.68kg (1.5lbs)

**Site Location:** Frost's 1107 surface mounted automatic air freshener has a clean low maintenance design that will suit most office and retail installations. Typically, the deodorizer is used in schools/universities, airports, restaurants, malls, office buildings, fitness facilities, and recreation centres. This product offers a simple to spray program with intervals ranging between 1 minute and 60 minutes.

## Features:

- Surface mounted to walls or mirrors
- Easy to install and maintain
- Operates with 2 "D" sized alkaline batteries (not included)
- Batteries should last 1 year or 10,000 sprays
- Moulded plastic cover
- Adjustable spray intervals
- Low battery indicator light
- Lockable

## Operation:

- Built in LCD clock displays time for easy programming of starting and stopping spray intervals. Set spray start and spray stop to suit your office hours. Spray intervals can range from 1 minute to 60 minutes. Built in counter will display number of sprays. Maintenance: green LED indicates functioning/spraying. Red LED indicates low batteries should be replaced.

## Capacity:

- Designed to hold 1 standard aerosol spray canister (7 ounces, 199 grams). These can be purchased through any commercial janitorial cleaning product supplier. These canisters use a dry formula to eliminate messy fall-out and should be V.O.C. compliant. They come in various scents to cover odors.

- 8.6cm W x 23.9cm H x 9.4cm D (3.4" W x 9.4" H x 3.7" D)

## Product Weight:

- 0.45 kg (1 lbs)

**Installation Guidelines:** Mark holes in the back of the unit against the wall in the desired location with a pencil. Use a level to ensure the unit is straight. Use the screws and anchors provided to drill or screw into the wall, leaving a portion of the screw off the wall. Then simply slide the unit onto the end of the screw and slide the unit down to secure it. Then tighten the screws to lock into place. Prior to mounting using self adhesive: clean surface, mark clearly with removable marker or masking tape the exact location and plumb line for unit. The tape does not allow for re-positioning if unit is mounted crooked or askew. Allow tape to set ten hours prior to filling and loading batteries.

**Maintenance:** Normal preventative maintenance and cleaning will keep Frost products functioning properly and may extend normal product life. Products should be wiped down with a damp soft cloth periodically. Approved stainless steel cleaner may be used to clean scuffs or fingerprints on stainless surfaces. Do not use harsh detergents or chemical cleaners. For general dirt and blemishes on painted steel or plastic use warm water and mild soap, or a general mild cleaning solution. When using any type of cleaning solution, spray onto a discrete area to test before full usage. After the cleaning agent is applied, wipe off with a clean soft cloth or sponge.

**Warranty:** If any product or part proves to be defective within 12 months from date of shipment from the factory it will be repaired or replaced without any charge including freight costs when authorized. Costs resulting from the installation or removal of defective products are not covered under this warranty. Discolouration to stainless steel parts resulting from exposure to harsh environmental and / or chemicals are not considered to be defects in workmanship or material and are not covered under warranty.
