SAFETY DATA SHEET

1. Product and Company Identification

BIOSOLVE EXTRA Product identifier

Other means of identification Not available

Recommended use Solvent degreaser and gum remover

Recommended restrictions None known. Manufacturer Unica Canada inc.

90, J.A. Bombardier Boucherville, (Quebec) Phone: (450) 655-8168

Emergency Phone (CANUTEC 24 H, Emergency only): (613) 996-6666

2. Hazards Identification

GHS classification in accordance with: (CAN) WHMIS 2015

Physical hazards Not classified

Health hazards Eye damage/irritation Category 2A Sensitization, skin Catégory 1

Skin corrosion/irritation Category 2

Environmental hazards Not classified. **OSHA** defined hazards Not classified.

Label elements

Signal word

Warning

Hazard statement

Causes skin irritation

May cause an allergic skin reaction Causes serious eye damage

Precautionary statement

Prevention Avoid breathing mist spray. Wash hands thoroughly after handling. Contaminated work clothing

should not be allowed out of the workplace. Wear protective gloves/protective clothing/eye

protection/face protection.

Response IF ON SKIN: Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several

> minutes. Remove contact lenses if present and easy to do - continue rinsing. Specific treatment (see this label) . If skin irritation occurs :Get medical advice/attention. If skin irritation or a rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take

off contaminated clothing and wash it before reuse.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

3. Composition/Information on Ingredients

Mixture Chemical name D-limonene 2-Butoxyethanol

Common name and synonyms

CAS number 5989-27-5

111-76-2

4. First Aid Measures

Inhalation Not dangerous

If on skin (or hair): Rinse skin with water/shower. Wash contaminated clothing before reuse. Skin contact

Specific treatment (see product label). Immediately call a poison center/doctor/.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and Eye contact

easy to do. Continue rinsing. Immediately call a poison center/doctor.

Ingestion

Most important

symptoms/effects, acute and

Indication of immediate medical attention and special treatment needed

General information

If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center/doctor/.

Not available

Provide general supportive measures and treat symptomatically. Symptoms may be delayed.

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Wear rubber gloves and chemical splash goggles. Keep out of reach of children.

5. Fire Fighting Measures

Suitable extinguishing media

Unsuitable extinguishing

media

Use appropriate extinguisher, as surrounding material.

Treat for surrounding material.

Specific hazards arising from

the chemical

Firefighters should wear a self-contained breathing apparatus.

Special protective equipment and precautions

firefighters Fire-fighting

equipment/instructions Specific methods

Hazardous combustion

products

Sensitivity to mechanical

impact

Explosion data

Sensitivity to static

discharge

Move containers from fire area if you can do so without risk.

Use standard firefighting procedures and consider the hazards of other involved materials.

Firefighters should wear full protective clothing including self contained breathing apparatus.

May include and are not limited to: Carbone dioxyde

Not available. Not available

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep out of low areas. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Should not be released into the environment.

Large Spills: Stop leak if you can do so without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Prevent entry into waterways, sewers, basements or confined areas.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.

7. Handling and Storage

Precautions for safe handling

Use only with adequate ventilation. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. Avoid breathing vapors or mists of this product. DO NOT get in eyes, on skin or clothing.

Keep only in the original container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure Controls/Personal Protection

Occupational exposure limits

Components Value

D-Limonene TWA 165.5 mg/m3 30 ppm

2-Butoxyethanol TWA : Maximum concentration : 20 ppm ACGIH

Biological limit values Appropriate engineering

No biological exposure limits noted for the ingredient(s).

controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection

Chemical splash goggles.

Skin protection

Hand protection Chemical resistant gloves. Confirm with a reputable supplier first.

Other

Wear appropriate chemical resistant clothing. As required by employer code. Where exposure

Respiratory protection guideline levels may be exceeded, use an approved NIOSH respirator.

Not applicable.

Thermal hazards

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Wash hands before breaks and immediately after handling

the product.

9. Physical and Chemical Properties

12. Ecological Information

Ecotoxicity

Components Species Test Results

d-Limonene

Crustacea EC50 Water flea (Daphnia pulex) 69.6 mg/l, 48 hours

Fish LC50 Fathead minnow (Pimephales promelas) 0.619 - 0.796 mg/l, 96 hours

2-Butoxyethanol LC50 Fish (Rainbow Trout) (96 hours) 1474 mg/l

EC50 Daphnia magna (48 hours) 1550 mg/l

EC50 Algae (72 hours) 1840 mgl

Persistence and degradability Bioaccumulative potential

Mobility in soil

Biodegradable at 100 %.

No data available No data available

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone

creation potential, endocrine disruption, global warming potential) are expected from

this component.

13. Disposal Consideration

Disposal instructionsCollect and reclaim or dispose in sealed containers at licensed waste disposal site. This material

and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international

regulations.

Local disposal regulations

Hazardous waste code

Dispose in accordance with all applicable regulations.

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal.

Since emptied containers may retain product residue, follow label warnings even after container is

emptied.

14. Transport Information

General

Canada: TDG Proof of Classification: In accordance with Part 2.2.1 (SOR/2014-152) of the Transportation of Dangerous Goods Regulations, we certify that the classification of this product is correct as of the SDS date of issue. If applicable, the technical name and the classification of the product will appear below.

U.S. Department of Transportation (DOT)

Basic shipping requirements:

Hazard class Packing group Not regulated

15. Regulatory Information

Canadian federal regulations

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.

WHMIS status

WHMIS classification

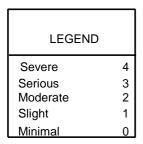

WHMIS labeling

Controlled

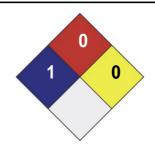

Class D2B - Materials Causing Other Toxic Effects

16. Other Information

Disclaimer

The data contained in this material safety data sheet was obtained from sources that were technically accurate, reliable, and state of the art when this document was prepared. If data was unavailable to complete certain sections, the absence of that data is identified in this document. Because the supplier cannot know the exact circumstances during actual use of this product, other hazards, exposure scenarios, disposal considerations, and regulations may apply and it is the responsibility of the user to read and understand the product label and this document before use. Do not use the product for purposes other than those stated in Section 1.

Issue date Effective date

August 21, 2019 August 21, 2019

Version 1.0

Further information

For an updated SDS, please contact the supplier/manufacturer listed on the first page of the document.
