SAFETY DATA SHEET

1. Product and Company Identification

Product identifier	CUVEX		
Other means of identification	Not available		
Recommended use	Acidic Cleaner and disinfectant (WHMIS EXEMPT)		
Recommended restrictions	None known.		
Manufacturer	Unica Canada inc. 90, J.A. Bombardier Boucherville, (Quebec) Phone: (450) 655-8168 Emergency Phone (CANUTEC 24 H. Emergency only) : (613) 996-6666		
	2. Hazards Identification	1	
GHS classification in accordance	ce with (CAN) WHMIS 2015		
Physical Hazards	Corrosive to metals	Category 1	
Health hazards	Eye damage/irritation	Catégory 1	
	Skin corrosion/irritation	Category 1B	
	Specific target organ toxicity, single exposure	Category 3	
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	\vee \vee		
Hazard statement	Danger May be corrosive to metals Causes severe skin burns and eye damage Causes serious eye damage. May cause respiratory irritation May cause drowsiness or dizziness		
Precautionary statement			
Prevention	Do not breathe dust/fume/gas/mist/vapours/spray. Avoid breathing dust/fumes/gas/mist/vapours/spray. Wash hands thoroughly after handling.Use only outdoors or a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	IF SWALLOWED: RINSE mouth. Do NOT inc		
	and easy to do – continue rinsing. Immediatel CENTER/doctor if you feel unwell. Specific treatment (see this label). Wash cont	I keep comfortable for breathing. everal minutes. Remove contact lenses if present ly call a POISON CENTER/doctor. call a POISON taminated clothing before reuse. Store in a well d. Absorb spillage to prevent material damage.	
Storage	Keep only in original container. Store locked up. Store in a corrosive resistant container or a container with resistant inner liner.		
Disposal	Dispose of contents/container in accordance	with local/regional/national/international regulations.	

	3. Composition/Information on Ing	gredients	
Mixture Chemical name Hydrochloric acid	Common name and synonyms	CAS number 7647-01-0	% 7 - 13

	4. First Aid Measures
Inhalation	If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center/doctor/.
Skin contact	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Specific treatment (see product label). Immediately call a poison center/doctor/.
Eye contact	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.
Ingestion	If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center/doctor/.
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Wear rubber gloves and chemical splash goggles. Keep out of reach of children.
	5. Fire Fighting Measures
Suitable extinguishing media	Treat for surrounding material.
Unsuitable extinguishing media	Use appropriate extinguisher, as surrounding material.
Specific hazards arising from the chemical	Firefighters should wear a self-contained breathing apparatus.
Special protective equipment and precautions for	Firefighters should wear full protective clothing including self contained breathing apparatus.
firefighters Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods Hazardous combustion products	Use standard firefighting procedures and consider the hazards of other involved materials. May include and are not limited to: Hydrochloric acid, acid vapours.
Explosion data	
Sensitivity to mechanical impact	Not available.
Sensitivity to static discharge	Not available.
	6. Accidental Release Measures
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep out of low areas. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for	Should not be released into the environment.
containment and cleaning up	Large Spills: Stop leak if you can do so without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS Prevent entry into waterways, sewers, basements or confined areas.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.
	7. Handling and Storage
Precautions for safe handling	Use only with adequate ventilation. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. Avoid breathing vapors or mists of this product. DO NOT get in eyes, on skin or clothing.

Store locked up. Store in corrosive resistant container with a resistant inner liner. Keep only in the original container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure Controls/Personal Protection

Occupational exposure limits

Components Hydrochloric acid	Value Ceiling : 5 ppm OSHA Final PEL
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures	s, such as personal protective equipment
Eye/face protection	Chemical splash goggles.
Skin protection	
Hand protection	Chemical resistant gloves. Confirm with a reputable supplier first.
Other	Wear appropriate chemical resistant clothing. As required by employer code. Where exposure
Respiratory protection	guideline levels may be exceeded, use an approved NIOSH respirator. Not applicable.
Thermal hazards General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Wash hands before breaks and immediately after handling the product.

9. Physical and Chemical Properties		
Appearance	Clear	
Physical state	Viscous	
Form	Liquid	
Color	Blue	
Odor	Wintergreen odor	
Odor threshold	Not available.	
рН	1.0	
Melting point/freezing point	< 0°C	
Initial boiling point and boiling range	Not available	
Pour point	Not available.	
Partition coefficient (n-octanol/water)	Not available	
Flash point	> 95 °C	
Evaporation rate	Not available	
Flammability (solid, gas)	Not applicable.	

Upper/lower flammability or explosive limits

Flammability limit - lower (%)	Not available
Flammability limit - upper (%)	Not available
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available
Vapor density	Not available
Relative density	1.05 – 1.07
Solubility(ies)	Complete
Auto-ignition temperature	Not available
Decomposition temperature	Not available.
Viscosity	Not available.
	10. Stability and Reactivity
Reactivity	Strong Alkaline products. This product may react with oxidizing agents.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Chemical stability	Stable under recommended storage conditions.
Conditions to avoid	Reacts violently with strong bases. This product may react with oxidizing agents.
Incompatible materials	Oxidizing agents. Alkalines products
Hazardous decomposition products	May include and are not limited to: Hydrofluoric acid, carbon oxide, acid vapours.
	11. Toxicological Information
Routes of exposure	Eye, Skin contact, Inhalation, Ingestion.

Information on likely routes of exposure

Ingestion Causes digestive tract burns.

Inhalation Prolonged inhalation may be harmful.

Skin contact

Eye contact

Causes severe skin burns. Causes serious eye damage. Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may

Symptoms related to the include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including physical, chemical and blindness could result. toxicological characteristics

Information on toxicological effects

Acute toxicity

Components	Species	Test Results
Hydrochloric acid		
Acute Dermal LD50 Inhalation LC50	Rabbit Rat	5010 mg/kg 3124 ppm (1 Heure)

Skin corrosion/irritation	Causes severe skin burns and eye damage.
Exposure minutes	Not available.
Erythema value	Not available.
Oedema value	Not available.
Serious eye damage/eye irritation	Causes serious eye damage.
Corneal opacity value	Not available.
Iris lesion value	Not available.
Conjunctival reddening value	Not available.
Conjunctival oedema value	Not available.
Recover days	Not available.

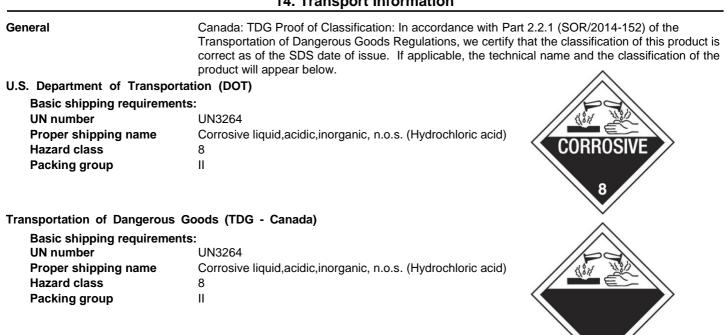

Respiratory or skin sensitization

Not available.
This product is not expected to cause skin sensitization.
Non-hazardous by WHMIS/OSHA criteria.
Non-hazardous by WHMIS/OSHA criteria.
None
Non-hazardous by WHMIS/OSHA criteria.
Non-hazardous by WHMIS/OSHA criteria.
Not classified.
Not classified.
Not available.
Prolonged inhalation may be harmful.
Not available.
Not available.

	12. Ecological Informa	tion	
cotoxicity	Because of the very low pH of this product, upon exposure to aquatic organisms and ac	it would be expected to produce significant ecotoxicity quatic systems. See below	
Components	Species	Test Results	
Hydrochloric acid	Fish (96 heures)	Acute LC50 : 282 mg/l	
-			
Persistence and degradabili	ty No data available No data available		
Bioaccumulative potential			
Mobility in soil	No data available		
Other adverse effects		I effects (e.g. ozone depletion, photochemical ozone ruption, global warming potential) are expected from	

13. Disposal Considerations	
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport Information

15. Regulatory Information

Canadian federal regulations

Controlled

Class E - Corrosive Material

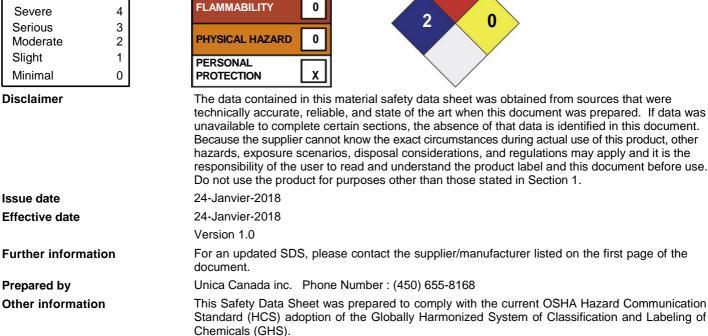

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.
