

UNICA SUPER DERM 1200

DESCRIPTION

Pink antibacterial protective & conditioner cream with a light almond fragrance formulated for hands. It forms a barrier film between the skin and irritating liquids such as: alcohol, urine, detergents, alkaline, acid, working liquids. This cream keeps also the skin soft and hydrated.

DIRECTIONS

Before work, apply a small amount on clean and dry skin, rub well for penetration. Repeat operation every four hours for more protection. After work, use the cream as protection against chaps. Food handlers have to wash and rinse their hands with drinking water before handling food products.

TECHNICAL DATA

Appearance	Soft cream
pH (as is).....	6.0 - 7.0
Viscosity (21°C)	20000 cps
Colour.....	Pink
Fragrance	Discrete almond
Characteristic	Natural ingredients
Biodegradability	Complete
Emollient.....	Lanolin, glycerin and aloe vera
Skin protector agent.....	Silicone oil
Antibacterial	Triclosan

SPECIAL ADVANTAGES

1. When applied, this cream makes an invisible dry and non-sticky film on hands
2. Accepted by Agriculture Canada - Food Production and Inspection Branch.
3. Unica Super Derm contains lanolin, glycerin and aloe vera in order to hydrate and soften irritated skin. These emollient factors keep skin from dehydrating when exposed to dry air.
