

**AUTOBUG**  
**Insects remover**

**DESCRIPTION**

AUTOBUG is a fast action biodegradable and ecological cleaner without silicone made for all surfaces such as body frame, hoods, paint, chrome, rubber, plastic, bumpers, lights, glass, grids, radiators, license plates and spoilers. It easily removes dirt, insects, bird droppings and many other hard dirt that is difficult to remove.

**ADVANTAGES**

1. It is a ecological and biodegradable product.
2. It easily removes all kinds of dirt

**TECHNICAL DATA**

pH (as is).....	11.5 - 12.0
Density (20 °C).....	1.028 g/cc
Colour.....	Fluorescent yellow
Fragrance.....	Lemon scent
Biodegradability.....	Complete
Freezing Stability.....	Stable

Degradability determined in accordance with OECD no. 301D.

**INSTRUCTIONS:**

Use only in ventilated areas. Apply on cold surfaces and store away from the sun. Shake the sprayer well and vaporized on the surface to clean. Let stand about 1 minute and remove the residues with a humid sponge. It is preferable to rinse the surfaces to optimize the cleaning and to avoid a sun reaction.
